Cap is at 85% SMI

How to Determine the Fee for Family Size 7 or More: Determine if the family's gross income falls below the maximum for the applicable funding stream. If it does, subtract \$393 from the monthly gross family income for each family member above 6, and use the fee schedule for family size 6 to determine the fee. If family income after subtraction exceeds \$9,300, the weekly fee will be set at the maximum fee of \$14 for care.

Parents who are eligible for Cash Assistance, but who choose Child Care in Lieu of Cash Assistance (CLOCA), will pay a weekly fee of \$1.
