OFFSHORE WIND TURBINE TECHNICIAN

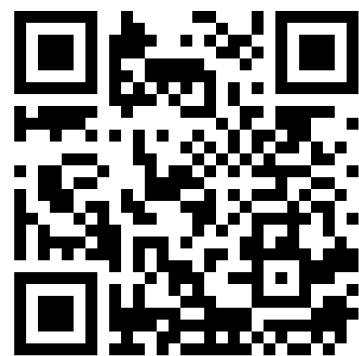

.....

- FREE training program starting 2025
- Repairing and maintaining electrical and mechanical components
- Monthly stipend

Join us for an upcoming Offshore Training & Career Pathway info session, featuring a two-hour presentation on career opportunities such as deck-hand, electrician, and construction. Participants will learn about seasonal scheduling; some roles require swimming skills, and others do not. The training will provide hands-on experience and prepare attendees for adjacent roles until offshore wind development begins.
